

AMANN
GROUP

AMANN.
Beyond Threads.

AMANN. Beyond Threads.

Quality, built into every thread

From raw material to
final product, how do we
ensure our high quality?

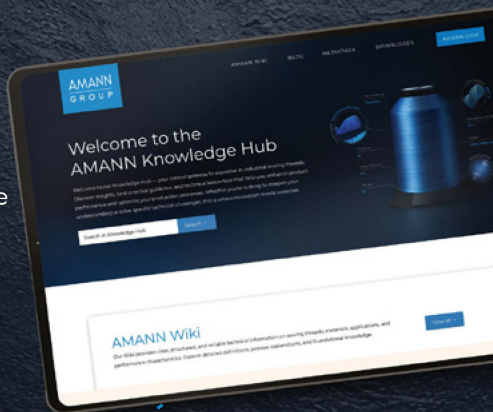

- ✓ Decades of cross-industry experience
- ✓ Certified quality across products and processes
- ✓ Carefully selected raw materials
- ✓ Harmonised global production standards
- ✓ Manufactured in our own facilities

AMANN Knowledge Hub

Knowledge that moves you

Explore our new AMANN Knowledge Hub – a place where textile expertise becomes accessible to everyone

WHAT YOU'LL FIND THERE:

- ▶ Wiki – practical knowledge about threads, materials and applications
- ▶ Blogs – insights, trends and expert perspectives from our team
- ▶ Videos – tutorials, technology deep dives and industry insights

AMANN and DMLx

Colour matching, digitised

scan for video

Our digital process simplifies colour matching. The seamless integration of AMANN's extensive colour portfolio into DMLx enables precise digital colour matching of AMANN threads to customer-specific textiles.

- ✓ Automated workflow, 100% reproducible at any time
- ✓ Eliminates errors and subjective colour evaluation
- ✓ Fast and efficient process
- ✓ Reduces complex sampling processes

AMANN Sustainability Performance Update

Progress you can measure

scan for page

A transparent update on sustainability progress – highlighting achievements, learnings, and areas for continuous improvement.

- ▶ Clear sustainability updates
- ▶ Focus on real progress
- ▶ Transparent reporting
- ▶ Long-term commitment

AeoniQ™ Fil

AeoniQ™ Fil
by AMANN

Sewing, naturally sustainable

Award-winning biodegradable thread made from renewable cellulosic fibres – designed for eco-conscious production without compromising on performance.

- ▶ 100% cellulosic content
- ▶ No microplastics pollution
- ▶ Supports mono material designs
- ▶ Used for all kinds of biodegradable textiles

Sera Reflect

Isa Reflect

Sera Reflect / Isa Reflect

Shine when it matters

Retro-reflective sewing and embroidery threads - engineered for improved visibility on outdoorwear, sportswear and childrenswear in low-light conditions or at night.

- ▶ Outstanding performance without loss of reflectivity during processing
- ▶ Brilliant silver look
- ▶ Pleasantly soft touch

Sera Reflect
For sewing

Isa Reflect
For embroidery

Waterfil

Waterfil

Stitches that disappear

Water-soluble

Water-soluble thread for temporary seams – strong during sewing, then dissolves without leaving any residues.

- ▶ Perfect for short-term fixings
- ▶ Gentle on fabric, no damage from temporary stitches
- ▶ Consumer-friendly way of attaching joker tags, as seams vanish during washing
- ▶ Saves time and money, no need to remove stitches

Saba Evo

saba evo

Special compact core-spun technology

High-end sewing thread engineered for superior seam uniformity and flawless appearance on premium products.

- ▶ Exceptional seam uniformity
- ▶ Perfect seam appearance
- ▶ High abrasion resistance
- ▶ Excellent sewing performance
- ▶ Suitable for elegant embroidery

For a smooth, premium seam

Isacord UV

Colour that lasts longer

Embroidery thread designed to retain brilliant colours, even under intense sunlight.

ISACORD^{UV}
RECYCLED

- ▶ Superior UV resistance due to premium dyestuffs with UV absorber
- ▶ Outstanding embroidery performance for maximum productivity
- ▶ Durable with excellent abrasion resistance
- ▶ Excellent colour fastness
- ▶ Made from 100% recycled polyester
- ▶ Pro-Care certified for industrial laundry according to DIN EN ISO 15797

Smart Stitch™

Designed for disassembly

The heat-dissolvable sewing threads enable products to evolve, easy disassembly and efficient textile recycling. Garments stitched with Smart Stitch™ can be disassembled on an industrial scale thanks to Smart Disassembly™.

Heat-dissolvable

- ▶ Allow garments to be designed for disassembly
- ▶ SmartStitch™ is offered with melting points of 170 °C and 190 °C
- ▶ Developed by Resortecs, produced by AMANN

AMANN Worldwide

Globally positioned, locally available

107132 | 100000426

Headquartered in Germany
7 production sites in UK, Romania,
Czech Republic, China, Vietnam,
Bangladesh and India.

AMANN subsidiaries and sales offices
in 18 countries and many distributors
all around the globe.
